

Amendments to the Specification

In the Specification:

Please replace paragraph [0032] with the following rewritten paragraph:

[0032] Bauernfeind prism 9 is arranged between deflecting prism 7 and rotatably arranged beam deflecting unit 5. Associated with Bauernfeind prism 9 is an optical component 10 with which at least a part of the light beam coming from adaptation interface 2 can be split off to a documentation interface 11. Optical component 10 is embodied here as a prism that is cemented onto Bauernfeind prism 9. Optical component 10 and Bauernfeind prism 9 together form beam-splitting assembly 6. Conveyance of beam splitting assembly 6 into and out of the working position is accomplished by way of magazine slider 27.
